

# 1 HOUR FIRE SAFES

EM-015

EM-016

Fire Resistant home safes are made of a durable gauge steel & not a plastic mould. These units are tested at 1700 °F (927 °C) for 1 Hour with an internal temperature not exceeding 350 °F (177 °C) which is the point that paper contents will start to char. Our hinges are sturdy and have additional hinge side dead-bolts to prevent the door from being jarred off.

## FEATURES:

- 1 Hour Fire Proof Protection at 1700 °F
- 1 ½" wall thickness
- 2 ½" door thickness
- 5/8" solid steel chrome plated locking bolts
- Pre-drilled counter-sunk anchor hole
- Plastic pull out tray for additional storage
- (4) AA Batteries
