

2 HOUR (Heavy Duty) FIRE/BURGLARY SAFES

The CLSB Series of safes offers you everything you need in Security against Theft and Fire. This unit is identical to the SB Series however in addition to its high security features it also uses a high PSI (pounds per square inch) composite and aggregate mixture. These units are classified as a Manufacturer's "CLASS 2" security vault. As with the SB Series the CLSB Series are also tested at 1700 °F (927 °C) for 2 Hours with an internal temperature not exceeding 350 °F (177 °C) which is the point that paper contents will start to char.

FEATURES:

- Full composite steel with a high PSI concrete & aggregate construction
- 2" thick walls, with a 5" thick door
- UL Group II combination lock
- Hard plate protects locking mechanism and bolt cam
- Remote glass re-locker to prevent drill attacks
